

Company Profile – Ugrarupa Energy Pvt. Ltd.

About Us

Ugrarupa Energy Pvt. Ltd. is a trusted renewable energy solutions provider with expertise in **Solar, Wind, Hybrid, and Battery Energy Storage Systems (BESS).**

We specialize in Quality Inspections, Independent Third-Party Inspections (**TPI**), **Consultancy (EPC)** Engineering, Procurement, and Construction. Installation & Commissioning (**I&C**), Annual Maintenance Contracts (**AMC**), and Operations & Maintenance (**O&M**). With more than a decade of experience,

Global Presence. Trusted Consultancy & EPC. Quality Renewable Energy Services.

Ugrarupa Energy Pvt. Ltd. – Delivering expert inspection, EPC, and consultancy services across India, China, Germany, Russia, Vietnam, Dubai, and worldwide.

we have successfully executed projects in India and globally including China, Germany, Dubai, and Spain.

Our Vision

To be a global leader in Renewable Energy Services, delivering sustainable, reliable, and cost-effective solutions with uncompromising quality.

Our Mission

- Empower industries and institutions with clean energy solutions.
- Ensure the highest quality standards through inspection and testing.
- Build long-term trust with clients through transparency and commitment.

Our Services

- ✓ Solar EPC Ground Mount & Rooftop Projects – Design, Supply, Installation & Commissioning.
- ✓ Wind Energy Inspection & Hybrid Project Solutions.
- ✓ Battery Energy Storage System (BESS) Testing & Installation.
- ✓ Quality Inspections & Testing (TPI, QA/QC, Factory Audits, Site Inspections).
- ✓ Annual Maintenance Contracts (AMC) – Comprehensive O&M for utility & rooftop plants.
- ✓ Transformer & Electrical Equipment Testing (Winding resistance, OLTC, Insulation, Ratio).
- ✓ Installation & Commissioning (I&C) – Solar PV Modules, Inverters, Transformers, Substations.
- ✓ Remote & On-Site Quality Audits.
- ✓ Operations & Maintenance (O&M) of Solar PV Plants.

Key Strengths

- 10+ GW Solar Inspections completed successfully.

Global Presence. Trusted Consultancy & EPC. Quality Renewable Energy Services.

Ugrarupa Energy Pvt. Ltd. – Delivering expert inspection, EPC, and consultancy services across India, China, Germany, Russia, Vietnam, Dubai, and worldwide.

- 13 MW AMC project with tracker system (Mehsana, Gujarat).
 - Global operations in **India, China, Germany, Dubai, Spain.**
 - Strong vendor & OEM network with reputed manufacturers.
 - Experienced engineers, inspectors, and project managers.
 - Proven record of timely execution & quality compliance.
-

Additional Services – Ugrarupa Energy Pvt. Ltd.

Ugrarupa Energy Pvt. Ltd. offers **end-to-end technical and consultancy solutions** for offices, warehouses, factories, and solar PV manufacturing plants.

Our services combine **inspection, structural analysis, design consultancy, rectification, and solar expertise** to ensure safety, efficiency, and performance.

1 Warehouse & Factory Inspections

We perform detailed inspections to assess the **structural integrity and stability** of offices, warehouses, and factory facilities:

- Conduct **structural stability inspections** to ensure safe load-bearing capacity.
 - Identify **weak points and potential risks** in existing structures.
 - Provide **rectification plans and solutions** to enhance structural safety.
 - Support compliance with **local and international safety standards.**
-

2 Load Setting & Structural Analysis

Our experts provide **precise load evaluation and structural analysis**:

- Determine **safe load limits** for buildings and equipment.
- Conduct **stress testing, wind load, and seismic analysis.**
- Recommend **reinforcements or modifications** where necessary.

Global Presence. Trusted Consultancy & EPC. Quality Renewable Energy Services.

Ugrarupa Energy Pvt. Ltd. – Delivering expert inspection, EPC, and consultancy services across India, China, Germany, Russia, Vietnam, Dubai, and worldwide.

- Ensure optimal **performance and durability** of the structure under operational loads.
-

3 Solar Consultancy & PV Plant Setup

We assist clients in **establishing solar PV module manufacturing plants** and renewable energy installations:

- Feasibility studies, **plant layout design**, and workflow planning.
 - Selection of **equipment and technology** for high-efficiency operations.
 - Structural consultancy for **rooftop and ground-mounted solar PV installations**.
 - Guidance on **rectification, optimization, and energy efficiency improvements**.
-

4 Structural Design Consultancy & Rectification

Our team provides **comprehensive structural design and analysis services**:

- Design consultancy for **offices, warehouses, factories, and solar PV plants**.
 - Perform **wind, seismic, and load stress analysis** to ensure compliance.
 - Develop detailed **rectification and reinforcement plans** for weak or non-compliant structures.
 - Integrate design solutions seamlessly with **existing infrastructure**.
-

Benefits for Clients:

-  Safe, compliant, and optimized structural facilities
-  Efficient and high-performance solar PV plant setup
-  End-to-end solutions from analysis, design, rectification to operation
-  Peace of mind with expert technical guidance

Global Presence. Trusted Consultancy & EPC. Quality Renewable Energy Services.

Ugrarupa Energy Pvt. Ltd. – Delivering expert inspection, EPC, and consultancy services across India, China, Germany, Russia, Vietnam, Dubai, and worldwide.

Client Trust & Experience

We have successfully worked with **global and domestic clients**:

- Solar PV Module Manufacturing & EPC: **Tata Power Solar, Adani Solar, Waaree Energies, Amplus Solar**
 - Financial & Institutional Projects: **SBI, World Bank Projects, Zepto , HDFC Bank,**
 - Global Corporates: **Amazon, Zelstra, Alibaba,**
-

Outcome:

Ugrarupa Energy ensures **safety, reliability, and efficiency** for every structure and renewable energy installation we handle. From **warehouse inspections** to **solar PV plant setup**, our solutions are **customized, technically sound, and client-focused**.

Project Portfolio Highlights

- ✓ 56 MW Tracker-based Solar AMC Project – Mehsana, Gujarat.
- ✓ 10 + GW Solar PV Module Inspections – Across India & China.
- ✓ Transformer & Electrical Testing – For multiple EPC clients.
- ✓ Hybrid Project Inspections – Solar + Wind sites in India, China, Israel,
- ✓ Battery Energy Storage System Testing & Deployment.
- ✓ Rooftop & Ground-mounted EPC Projects – PAN India.

Why Choose Ugrarupa Energy?

- Global presence with trusted execution and Consultancy Solutions.
- One-stop solution for EPC, Inspection, AMC & O&M.
- Strong client portfolio including banks, global institutions & top EPCs.
- Commitment to safety, sustainability, and efficiency.
